Pattern on the 17th of June, on George Beacon, No. 17th West Twenty fifth street, was cont to the General Sessions.

The case of Joseph Eustace, charged with assault and battery on Specierica Castine, was dismissed.

The Accept or the disorderly house, complained of by Daniel S. Foung, was fined \$500.

Adjument to 2 o'clock, Sainvay morning.

COURT OF GENERAL SESSIONS-JULY 9 -Before Judge

Court of general sessions—july 9—before Judge Russell.

Charles Schmidt, a young German 19 years old, pheaded guilty to grand larceny, and was rentenced to the penitentiary for 2 years.

Sarah J. Campbell, a youthful looking girl, indicted for grand larceny, pleaded guilty to an attempt at grand larceny. She cried quits violently, and the Court finally decided to enter the to the City Prison for 4 months.

Theodore Simon indicted for grand larceny, in pursoints from the establishment of Tiflany & Co., some \$560 or \$700 worth of jewelry pleaded guilty to an attempt at grand larceny Simon was apparently about 23 years of see of fine personal seperature, and at the time of the alleged offense was clerk for Tiflany & Co. His former employers increeded with the Court in his behalf, attested his previous good character, upon which the Court was induced to let him off with the light sentence of one year to the Fenitentiary.

At this point the Grand Jury came in, and their bremen handed to the Clerk several indictments, upon which the following action was taken:

Thomas McCaolsy, calling himself sixteen years old though he appeared to be full twenty), pleaded guilty to stealing a watch and chief, ou fane 15, from Jax Eunis pressman in The Herald office, was sentenced to the Penitentary for two years.

Rebecca Potter, colored, pleaded guilty to stealing

Lauva Depby, an exceedingly delicate-faced girl rapricener charged with crime, pleaded guilty to petit laveny stealing a small quantity of jewelry. She represented herself a hardey been in the city but five months and cam from billedebphia. She was sentenced to the Penitentiary for four

onths.

James Flynn was placed upon trial for robbery in effect degree. The accused testified before the magistrate at he was 21 years old, was born in England, lives in Aibany rect, and by occupation "I follow the street." The special rage against him was, that on the 20th of June last, about 2 clock in the merning, in company with two other young row, he knocked down William Luring, German, and wholesale not dealer, No. 114 Greenwich street, and rifled his pocket of contents.

ned the above statement.

defendant had no counsel and offered no witnesses, when
Russell addressed the Jury in a brief charge, and the Jury
t leaving their seats returned a vordict of robbery in the

Prison for 29 years.
William H. Boughton pleaded guilty to bigamy, and
was sentenced to the State Prison for 2 years.
James Saunders, ship carpenter, pleaded guilty to
an attempt at burglary in the third degree, and was remanded
till Saturday for sentence.
Adjourned to 11 o'clock to-morrow morning.

ALFORD—BROAS—In Binghanton, N. Y., on Sunday, July 6, at the residence of the bride's father, in Elidia street, by the Rev. Wm. H. Goodrich of the Presbyterian Church. Mr. Thos. K. AMord of New-York City, to Miss Mary Virginia, escond daughter of J. Ira and Rebecca Broas of Binghanton. FLANDERS—PLATT—On Thursday, July 9, at the Clinton-avenue Congregational Church, by the Rev. William J. Budington, Mr. George B. Fianders son of the late Benjamin Flanders, to Miss Jenny Platt, all of Brooklyn.

To a control to the c	Account of

The downward tendency of the market yesterday afternoon was continued this morning in the prominent fancies. The operators for a rise appeared rather disposed to realize than to push their su of the past few days further. At the Second Board, Central was thrown on the market very freely, and it is supposed that the clique has been broken up. The market fell off to 80], and afterward sold at 80], a decline of 21 v cent since yesterday. Eric opened at 27 and fell back in the street as low as 251. There was afterward a rally, and the closing price was 26j.

The announcement of the chattel mortgage of
\$1,500,000 had an unfavorable effect, but it was not so serious as was anticipated. The affairs of this Company form a very prominent topic of conversation in the street, and we hear various rumors in regard to i its embarrassments which have not shape enough to be more particularly alluded to. In Reading the market was well sustained, and closed at 761, which is better. Philadelphia letters state that there is no South of a 4 F cent cash dividend. Southern Mich | result is as follows:

igan was heavy, declining from 48 to 464 for the opening. The guaranteed stock sold at 74. Toledo was weak in the morning, but recovered at the aftern-on ression to 57, still showing a fall of 2 P cent as compared with yesterday's price. La Crosse was active, and advasced to 42, but tell back afterward to 40. Milwaukee and Mississippi was also weak, de-clining to 554. Pitt-burgh sold from 40 down to 384. A sale of Pacific Steamship was made at 764, ex dividend. The success of this Company has been very marked. The accumulation of 100 shares bought only eighteen months ago for about \$6,500, and the dividet d reinvested in the stock is now some \$16,000. In Railroad Bonds there was very little done. A sale of \$35,000 Virginias was made at 88, seller sixty, and 89 seller three; \$21,000 Missouris at 78, and Louisiana 6s at 79. The general market was quite irregular to-day, with considerable willingness shown to sell, while the parties who have been buying for the last week or ten days did not appear to have many orders.

The market is very quiet for Exchange and rates

are unchanged.

Freights are without material change. The engage ments to Liverpool are 16,000 bush. Grain at 3d. in bags and bulk, and Cotton at 3s. To London, 510 bbls, and 150 tuns Oil Cake at 1s. 3d. for the fomer and 12s. 6d. for the latter, and 50 tuns Ingot Copper at 12s. 6d. To Rotterdam, 300 bbls. Rosin at 2s. 3d. To Bremen, 100 bbls. Spirits at 24c., 300 bbls. Oil at 2c. To Bristol, 300 bbls. Rosin at 2s. A vessel to take a wrecked cargo from Nassau to Gibraltar, the bulk

The business of the Sub-Treasury was: Receipts, \$393,183 95; Payments, \$262,797 91; Balance, \$10,-405,974 32. Included in the payments was a draft for \$115,000, in payment of property purchased by Government spposite Fort Schuyler.

The Continental Insurance Company has declared a

dividend of 5 P cent on the capital stock of the Cempany, payable on the 14th inst., and also 331 & cent on the premiums earned during the year. The Lamar Insurance Company has declared a semi-annual divi-Mend of of 5 P cent, payable 15th inst. The Bowery Savings Bank notifies its depositors that the usual half-yearly interest will be paid on the 20th inst. The rate of interest is 5 \$\psi\$ cent on all sums of less than \$500, and 4 \$\psi\$ cent on sums of \$500 and upward. The Ætna Fire Insurance Company has declared a helf-yearly dividend of 6 \$\psi\$ cent, payable 15th inst. The Relief Insurance Company a half-year's dividend of 8 to cent, payable on demand. The New World Fire Insurance Company a half-yearly dividend of 5 * cent,

payable 1st August.

The earnings of the Milwaukee and Mississippi Railroad for the month of June last, as officially stated, are \$118,618, instead of \$116,127 as heretofore reported. The earnings of the Wabash Valley Railroad in June

expenditures. A meeting of the stock and bondholders of this city was held to-day at the office of the Company, to consider what measures should be adopted to relieve it from its embarrassments. The managers of the Company proposed that the Coupons on the bonds, two Coupons on the 1st and three on the 2d Mortgage, should be funded. The earnings of the road could then be devoted to the payment of the floating debt, a portion, however, being reserved as an accumulating fund for the redemption of the funded Coupons. A committee consisting of Messrs. Chauncy, Morgan and Pavenstadt, was appointed to examine the affairs of the Company, and report of it is advisable to accede to the propesed plan. The meeting was a large one, and the best feeling prevailed. Full confidence was expressed in the management, and a disposition shown to afford the road every facility for developing its business. The officers of the road gave the fullest information of its position in answer to the inquiries of the meeting. The plan proposed appears to be a fair one, and the best proposition which, in its present con-dition, the Company can offer. The bondholders will no doubt consider it their interest to accept it.

An evening paper intimates that the Michigan An evening paper intimates that the includes Southern Company contemplates an issue of Income Bonds to pay off the balance of its floating debt. Upon inquiry we learn that no definite policy upon this subject has yet been settled upon by the Directors of that Company. At the time of making their recent issue of guaranteed stock it was stated in the Company. pany's report that the balance of floating debt, after applying the proceeds of the new stock, would be about \$940,000, and that the Company had on hand, unsold, about \$1,250,000 in bonds of the Detroit and Toledo Road and of their own Sinking Fund Bonds, beside other assets to the amount of nearly \$1,000,000, the proceeds of all which would be applicable to the extinguishment of this debt and the completion of

It has been suggested that share bonds, based upon these assets, to fall due at the rate of \$200,000 or \$300,000 per year, and to be met at maturity from the proceeds of the sale of such assets, would be an economical and judicious mode of wiping out the entire floating debt, and would leave the income of the road a plicable to the payment of interest upon the funded debi. and of dividends upon both classes of the stock.

We are informed, however, that no such plan has been yet decided upon; but should it be hereaust deemed advisable to resort to something of the kind, we think no one can doubt that it would be a sound and conservative policy. It would not add anything to the amount of the debt, but would simply change its form, and would make it payable at stated periods, enabling the Company to realize fair prices for its un-sold assets, and thus meet all its obligations without diverting the income from its legitimate purpose of paying dividends upon the stock and interest upon the

unded debt of the Company.

To morrow (10th July) is the day for the conversion of Chicago & Rock Island Bonds, and several parcels have been sent in for conversion. The road with the

The same paper thus notices the aspect of the Dry

The same parer thus notices the aspect of the Dry Goods market:

Trade is still in a state of suspense with the importers. Though the importations have been less than last year at the same period, a larger proportion has gone into bond, and there seems to be no hurry to withdraw them. The return of bad weather injured the jobbing trade, which lost the little demand it enjoyed the week previous. About the middle of the month in the usual period for buyers from distant markets to make their appearance, and due preparations will be made to entice them to buy liberally. The South-Western trade is generally the first in order of time; then the South, afterward the West, and last the North and then the East.

South, afterward the West, and last the North and then the East.

A few stragglers are already here looking round, but without purchasing. As to prices, there is nothing yet ascertained, as buyer and seller have not practically met to decide or give a start to them. It is generally surmised that stocks in the interior are low, and that a good demand must prevail; but the extent of the demand will depend entirely on the character of the cereal harvest. If that be plentiful, both the demand and the collections are expected to be good. We observe that more raw silk and less manufactured silks are being experted from China. The increased price of raw silk has injured the manufacturing industry of China. A small reduction in the price of silk had occurred at last advices thence, in consequence of an increased supply

vices thence, in consequence of an increased supply The new styles for the coming season have not been yet exhibited. In domestic goods, there is a better supply and assortment, to attract an early trade.

A small reduction in cotton will increase the con-sumption materially, so that the increased product expected from the growing crop will still bring high prices. The high price of silk is stimulating the man-ufacture of fabrics of cotton and silk. The clothing trade is still dull, but it is expected to revive before

the week is out.

The advices from France are more encouraging relative to the crop of raw silk. It is ascertained that the crop in the South of France is so far advanced that the yield will prove more productive than last year. The reports circulated about disease in the mulberry leaves and failure in the eggs prove to be featured. fabrications.

The following communication, relating to the prices

of Stocks and American Securities, has been received at Washington from a correspondent at Frankfort, under date of June 7:

under date of June 7:

"The general tendency on Change last week was decidedly downward, less for Government securities than for-bank and enterprise shares. Business was without any animation, and appears to be getting flatter every day. It is now anticipated that during the hot weather the Stock Exchange will enjoy almost perfect call."

perfect calm.

"The transactions in American bonds, &c., have been so trifling as not to be worth mentioning. The threatening repudiation of the City of Pitt-burgh serves to highten the general distrust. If such cases serves to highten the general district. It such cases are to happen often, German capitalists will make no further investments in American securities. Fae high-est rate of interest will hardly tempt any one to jeopard

The Indianapolis Journal of Wednesday says:

"The project establishing a Union Bank in Indianapolis, in which all the Free Banks will be stockhold ets, to act as a Clearung-House for the protection of the issues of the Free Banks, has at last, we learn, been determined upon. A meeting of the free bank its was held here a few days since, and preliminary steps taken for the establishment of the Clearing-House. The Union Bank will not as a protector against brokers, by exchanging currency for the Indiana Free Banks, when presented. It will be the policy of arrangement to reduce the rates of exchange, to keep the issues of our Banks at home, and resist the heretofere practiced policy of foreign bankers and brokers in reference to our Free Banks. The arrangement cannot but be productive of good."

The Boston Past of Tuesday thus notices the Money market of that city: The Indianapolis Journal of Wednesday says:

The Boston Post of Tuesday thus notices the Morey market of that city:

"On Thursday and Friday there was some anxiety to borrow for a few days, on account of the heavy payments of the 3d, 4th and 5th; but there seemed to be little difficulty in finding the necessary sums. A very large amount was paid into the banks on Friday, and, on the other hand, a very large amount was paid out by fhem, in small notes, for the various dividends heretofore announced, and for the usual half yearly settlement of bills. There were but few protested notes, and upon the whole the money market could not be said to have changed, either as regards rate or supply. Eight by cert and a brokerage is now the lowest street price for very favorite paper, and from \$\frac{1}{2}\$ to 10 is the range of prime business notes. Stock leans range from 7 to 12, and second-band borrowers on stocks and collateral notes pay the brokers, 10, 12 and upward."

leans range from 7 to 12, and second-band bortowers, on stocks and collateral notes pay the brokers, 10, 12 and upward."

"The banks, of course, get from 6 to 8, the former being the rate on Boston; and 7 to 8, the charge on foreign paper. They find no difficulty in lending all their means. A little coin has been lost to New York since our last, but the banks yet have from \$500,000 to \$800,000 more than what is generally regarded as an insufficient supply. The New York exchange market was considerably relieved early in the week by drafts in payment of that portion \$300,000 of the Massachusetts State loan taken on New-York account, and by that part of the last California remittance that belonged to Boston. At the close, however, New-York funds were again in brisk demand."

Grawing Cao.—The accounts of the growing crop, received during the past week from the various sections of the cotton region, are somewhat chequired in their character; from some points they are favorable, from others the reverse; they all agree, however, in the one important fast that the crop is faily three weeks later than an average. Blooming will be general during the present week, whereas in an ordinary season it ought to be universal by the 10th or 15th June. The stand for the new crop is good, and with grain weather to the end of the season, and a late frost, we may yet make an average crop. Before this can be done we have to encounter the chances of disasters; the whole question is in the future, and upon the state of the weather and the date of frost will depend the extent of the next crop.

Receives, Exposers, &c.—The receipts for the week are than the date of weak will be sail more medicate, as by

weather and the date of frost will depend the extent of the next crop.

RKCRIPTS, EXPORTS, &c.—The receipts for the week are 7,600 bales, and next week will be still more moderate, as by telegraph we learn that at New-Orleans and Mobile together they were only 1,500 bales. The total receipts at the ports amount to 2,800 000 bales, and the evidences are daily increased that the country is almost entirely cleared of cotton, and that the receipts up to let September must be on the smallest scale. The export to Great Britain for the week is 3 000 bales, and to France and other foreign ports 11,000 bales. So much of our remaining stock is already bought for France, Spain and the Continent of Europe that only a very moderate portion will so to Great Britain, and her total supply for the year will probably fall short of my estimate of 1,430,000 bales.

The following is a statement of the movement in Contra, since the lat Sentember last, as command with

Cotton since the 1st September last, as compared with the previous four years :

the previous four years:

Manhota CARPEULLY R	EPORTED FOR THE TRIBUNE.

mos., usual selection, rejecting bad hides; 450 wet-saited Western at 114c. 6 mos.; 950 Savanilla at 254c. HOPS—There is more doing to-day for home use. Snewers have held off for some time past, but are now purchasing quite freely. Sales of 66 bales at 7542c. for common to choice Eastern and Western. Hay—The supply of dis moderate and prices are firm; sales of 460 bales at 754 59c. \$\psi\$ 100 \$\mathcal{D}\$. If ON—Scotch Pig is doil and heavy at \$\psi 30 \$\pi\$ \$\psi 31\$, 6 mos.; the stack is sample.

HAY—The supply of old is moderate and prices are firm; sales of 400 belos at 750 20c. \$\text{P}\$ to \$\text{D}\$.

IFON—Scotch Pig is doll and heavy at \$300 \$\$11, 6 mos.; the stocks suppe.

LEATHER—The market for Hemlock Sole retains its buoyancy, and a good business is doing; Oak is firm, and reduced in stock.

IME—There have been no receipts and in the absence of \$1.1ME—There have been no receipts and in the absence of stock in first hands prices are mominal; last sales at 80c. for Common and \$115 for Lump.

MOLASSES is dull and nominal; we have not heard of any further sales.

NAVAL STORES—Spirits Turpentine is less animated, owing chiefly to the measure supply on sale (although the receipts are more frequent but these were sold previous to arrival), which helps to impa t buoyancy to the market; the transactions include 250 bbls, on the spit, at 45c. c.sal, and 30 dc., to arrive at 47c. closing buoyantly, under the influence of a telegraphic dispatch from Wilmington reporting sales there at 42c., which is an advance of the \$200 the spit, and \$200 bbls, and the receipts in prospect do not sugregate over 2,200 bbls, as an extreme. Under these circumstances, receivers are very firm in their views, and the market partakes of a healthy tone. Crude is quiet, but firm. Common Resin is in measure supply, and prices rule firmity, sales of 200 bbls, at 1150 bbls, firm and sales of 300 barrels NO 2 at \$2.25 p bis h, in yard, and \$1.150 bbls, firm and sales of 300 barrels NO 2 at \$2.25 p bis h, in yard, and active; sales of 300 barrels NO 2 at \$2.25 p bis h, in yard, and active; sales of 300 barrels NO 2 at \$2.25 p bis h, in yard, and active; sales of 500 barrels NO 2 at \$2.25 p bis h, in yard, and active; sales of 500 barrels NO 2 at \$2.25 p bis h, in yard, and there is huntile supply and the demand is limited at yesterday's prices.

OILS—The market for all kinds continues languid, bowers being reluctant to operate to any extent so long as prices rule so high but it would seem that sollers cannot materially lower quotati

SALITETER—At Boston sales were made of 200 or 300 bags Crude at 84c. # B 6 mos. TALLOW—The market is firmer, the demand steady; sales of 25,000 fb prime City at 115c., cash. WHISKY—The market is firm, the demand is fair; sales of 700 bbls. at 325 % 33c. for Ohio and Prison.

Markets Reported by Telegraph.
